

AMULLYA SANJAY DAKHANE

Frontend Developer | React.js Developer

Nagpur, Maharashtra | +91-8149246658 | amullyadakhane01@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with 1.5 years of professional experience building responsive, user-friendly web applications. Skilled in React.js, JavaScript (ES6+), Tailwind CSS, and Bootstrap, with solid hands-on exposure to REST API integration and component-driven development. Completed B.Tech in Computer Science Engineering. Comfortable working across the full frontend lifecycle — from UI design to production — in Agile team environments. Looking to take on more responsibility in a product-focused engineering team.

WORK EXPERIENCE

Frontend Developer | Iceico Technologies Pvt. Ltd., Nagpur

September 2024 – Present

- ▶ Built and maintained responsive UIs using React.js, Tailwind CSS, and Bootstrap, ensuring consistent cross-device and cross-browser compatibility.
- ▶ Worked with backend developers to integrate RESTful APIs and handle dynamic data rendering efficiently on the frontend.
- ▶ Applied code-splitting, lazy loading, and clean state management to reduce initial load time and improve runtime performance.
- ▶ Participated in Agile sprint cycles — attended standups, contributed to code reviews, and helped with feature scoping discussions.
- ▶ Followed WCAG accessibility guidelines and wrote documentation for UI components and architecture decisions.

KEY PROJECTS

Insurance Management System

Tech Stack: React.js, Bootstrap, HTML5, CSS3, JavaScript

- ▶ Developed a multi-module insurance platform covering policy creation, renewal tracking, claims processing, and premium calculation.
- ▶ Designed role-based dashboards for agents, managers, and end-users with data visualisation using charts and summary cards.
- ▶ Built a reusable React component library that reduced development effort noticeably for follow-on modules.
- ▶ Added form validation and real-time feedback throughout the platform to reduce user errors during data entry.

Personality Prediction from Social Media

Tech Stack: React.js, JavaScript, CSS3, REST API, Python/NLP (Backend)

- ▶ Built the complete frontend for an AI/ML application that analyses social media behaviour to predict MBTI personality types.
- ▶ Designed interactive results screens showing personality type breakdowns with graphical trait indicators.
- ▶ Integrated backend REST APIs to fetch ML model outputs and render predictions in a clean, readable interface.
- ▶ Applied responsive design patterns to ensure the application works well on both desktop and mobile devices.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap 5, Angular

Backend (Basic): Node.js, Express.js, REST API Integration

Tools & Platforms: Git & GitHub, VS Code, Figma, Postman, Chrome DevTools

Concepts: Responsive Web Design, Component-Based Architecture, State Management, Agile/Scrum

EDUCATION

B.Tech — Computer Science Engineering — Karmaveer Dadasaheb Kannamwar College of Engineering, Nagpur 2022 – 2026

HSC (PCMB) — SPM College of Wani / 65.67% 2021 – 2022

SSC — Lions English Medium School, Wani / 84.20% 2019 – 2020

CERTIFICATIONS & ACHIEVEMENTS

- ▶ Completed online courses in React.js Development and Modern JavaScript (ES6+) through industry learning platforms.
- ▶ Consistently met sprint delivery milestones at Iceico Technologies across multiple production projects.
- ▶ Attended college-level technical workshops and events focused on web technologies and frontend frameworks.
- ▶ Balanced B.Tech academics with concurrent full-time professional experience throughout the programme.
